

Move Culver City: Tactical Mobility Lane Pilot

Downtown Corridor Monthly KPI Report | November 2022

Project Background

Move Culver City was started in 2020 by Culver City's Department of Transportation and Department of Public Works to reimagine streets as public space and prioritize moving people over cars on three corridors in Culver City.

In November 2021, Move Culver City implemented mobility lanes in both directions on the 1.3-mile stretch of Culver Blvd and Washington Blvd between La Cienega Ave and Duquesne Blvd: the Downtown Corridor. The mobility lanes provide dedicated street space for sustainable transportation such as cyclists, scooters, and transit in Downtown Culver City and Arts District.

A primary component of the Move Culver City project is monitoring the impacts of the mobility lanes. The purpose of the Monthly KPI Report is to measure the impacts the project has on sustainable transportation growth including bicycle, pedestrian, micromobility, and transit use and operations, while also understanding impacts on vehicle travel times and volumes on and around the corridor.

Data Sources Overview

The Monthly KPI Report utilizes all available and relevant historical data and compares it to current conditions for each transportation mode: transit operations, transit ridership, bicycle volumes, pedestrian volumes, micromobility activity, vehicle volumes, and vehicle travel time.

Due to the drastic changes the COVID-19 pandemic has on our travel patterns, this report looks at two historical data sources when available. Historical data collected before March 2020 is considered Pre-Pandemic conditions. Historical data collected during 2021 is considered Pre-Implementation conditions. Data collected after November 2021 is considered Post-Implementation conditions. Data collected starting January 16, 2022 is considered Post-Implementation conditions, when the corridor re-opened after design changes were made.

Historical and current data sources are listed to the right for each transportation mode being monitored and evaluated monthly in this report. Additional data will be collected for mid-project and post-project evaluations of the Downtown Corridor.

The metrics detailed in this report can be attributed to changes resulting from the project as well as other local and regional changes to travel demand.

Transit Operations

- *Pre-Pandemic:* Feb 2020
- *Pre-Implementation:* Same month in 2021
- *Post-Implementation:* 1/16/2022 to last day of Past Month
- *Source:* Culver CityBus

Transit Operations and Transit Ridership assessment compares past month to the same month in the pre-implementation year to account for seasonality factors.

Transit Ridership

- *Pre-Pandemic:* Sept 2019
- *Pre-Implementation:* Same month in 2021
- *Post-Implementation:* 1/16/2022 to last day of Past Month
- *Source:* Culver CityBus

Vehicle Travel Times

- *Pre-Pandemic:* Sept 2019
- *Pre-Implementation:* Sept 2021
- *Post-Implementation:* 1/16/2022 to last day of Past Month
- *Source:* Waze and INRIX traffic data collected through cell phone activity

Vehicle Volumes

- *Pre-Implementation:* Sept 2021
- *Post-Implementation:* 1/16/2022 to last day of Past Month
- *Source:* GRIDSMART cameras

Pedestrian Volumes

- *Pre-Implementation:* Sept 2021
- *Post-Implementation:* 1/16/2022 to last day of Past Month
- *Source:* GRIDSMART cameras

Bicycle Volumes

- *Pre-Pandemic:* Nov 2019
- *Post-Implementation:* 1/26/2022 to last day of Past Month
- *Source:* Data collected through video recording and counted manually

Micromobility

- *Pre-Implementation:* Same month in 2021
- *Post-Implementation:* 1/16/2022 to last day of Past Month
- *Source:* Populus micromobility trip data provided by Bird and Wheels

Move Culver City: Tactical Mobility Lane Pilot

Downtown Corridor Monthly KPI Report #11 | November 2022

Downtown Corridor is Culver Blvd at Duquesne Ave to Washington Blvd at La Cienega Ave

MOVE Culver CITY

It's how we get there.

Active Transportation Users

Average Daily Volumes on Downtown Corridor

547,003 total users since project launch

	Bicycle Volumes	Pedestrian Volumes	Micromobility Trips
November 2022	321	1,201	114
% Change from Pre-Implementation	+19%	-1%	+777%
Total Users Since Project Launch	103,030	404,511	39,462

Move Culver City Downtown Corridor

Culver CityBus Activity

Average Daily activity on Downtown Corridor

275,443 total transit riders since project launch

Ridership		Past Month	% Change from November 2021
CCB1/5/7	from Duquesne to La Cienega Ave	1,007	+50%
Circulator	from Duquesne to La Cienega Ave	60	N/A
On-Time Performance			% Change from Pre-Pandemic
CCB1/5/7	from Duquesne to La Cienega Ave	94%	+6%
Circulator	from Duquesne to La Cienega Ave	N/A	N/A

Vehicle Activity

Weekday AM Peak Hour (8:00 - 9:00 AM)

10% more vehicles per day

Travel Time	November 2022	% Change from September 2019	% Change from September 2021
Downtown Corridor	6.4 min	-8%	+14%
Jefferson Blvd from Duquesne to National	3.2 min	-4%	+3%
Venice Blvd from Duquesne to La Cienega Ave	5.8 min	+17%	+15%
